Heavy Vote Cast

The total vote may prove to have been the largest ever cast in the

The election was the culmination of one of the hottest fights ever waged in the state and marked the reunion of the Republican and Progressive parties, whose differences in 1912 gave the electoral vote to Maine to President Wilson and two years later resulted in the election of Governor Oakley C. Curtis by a plurality of Tonight figures indicated that regular percentage of the Propublican ticket.

For the first time the two United States Senators were elected by popular vote, and the Republicans made Don't Take Chances With That a determined effort to win the one seat in the Senate and the single seat in the House of Representatives held by Maine Democrats.

The following telegrams received last evening by Mr. W. D. Cochran were very welcome news to the Hughes and Fairbanks followers in this city, as the result in Maine, strongly indicates the November out-Tobacco Savers

DEMOCRATS PROVIDE FOR NATIONAL LOAN

At last the cat is out of the Democratic bag. For months the country has been assured that the new revenue bill, with the balance in the Treasury, would provide sufficient to pay all of the heavy appropriations for the coming year even if they reached the expected total of \$1,700,000,000. This has proved impossible, and so bonds will be issued to the amount of \$130,000,000 to pay the expenses of troops on the border to the first of next January, and about \$90,000,-000 more if they are kept there throughout the fiscal year. The bonds will be those of the Panama Canal, which can be sold to reimburse the Treasury at any time, since the greater part of the expense of canal work was paid for out of the free money in the Treasury. These three per cent, bonds will command a ready market, although they have no currency privileges.

Of course, the effort is being made to show that all the extra expense of the session is made up by bills for preparedness. At the most liberal estimate such appropriations do not exceed \$390,000,000 beyond the normal expenditures, so that Congress has passed, or is about to pass, appropriation bills some \$200,000,000 in excess of last year, aside from preparedness measures. Last year was the highwater mark of national expenses in peace times, and this year's appripriations will be so much larger that they actually exceed the cost of the most expensive year of the Civil War.

This is a strange record for a party which came into power pledged to economy.

The American people face the most extravagant appropriations and the heaviest taxation in their history.-Philadelphia Inquirer.

If Wilson is re-elected it will mean a Democratic tariff will be continued. If Hughes is elected this European competition will be met at the border by a protective tariff. Think it over.

No party has ever been popular, or could long stay in power, that resorted to personal rather than property taxes to make both fragettes ought to take heart and spent over \$8,000,000 a day for every they sprung. Their heads just can't

BLOODSHED THAN WILSON'S PEACE

By Theodore Roosevelt. Under President McKinley we had a war with Spain. Under President Wilson we are assured that we have had "peace" with Mexico. These are the words. Now for the deeds. During the war with Spain fewer Americans were killed by the Spaniards than have been killed by Mexicans during the present "peace" with Mexico. Let me repeat this. A greater number of Americans have been killed by Mexicans during these years, when we are officially informed that we have been at peace with them, than were killed by the Spaniards during our entire war

with Spain. Moreover when the war with Spain was through, it was through. But peace still continues to rage as furiously as ever in Mexico. Nor is this all. The instant effect of the outcome of the war with Spain was to put a stop to the dreadful butchery and starvation in Cuba and the Philippines, and the entry of both Cuba and the Philippines on a career of eighteen years of peace and prosperity such as they had never known before in all their checkered history. But during these three years of Mr. Wilson's the Mexicans themselves have been butchered by their own bandits steadily and without intermission; and Mexican women and children have died by thousands-probably by scores of thousands-of starvation, and of the diseases incident to starvation. In other words, Mr. McKinley's war cost less peace; and it reflected high honor on the American people;

President Wilson is a newlywed, and gress completed, the Democrats have Some men arise from the slums. REPUBLICAN THRIFT IS **SQUANDERED BY WILSON**

Built Panama Canal Out of Current Revenues. Patriotically Hoarding Bonds in Treasury Which Democrats Filch to Hide a Deficit.

CARNIVAL OF DEBAUCHERY IN PUBLIC EXPENDITURE

Senator Penrose Believes the Looted Condition of the Treasury Wil Necessitate the Withholding of Contracts for Battleships and Delay the Whole Scheme of Preparedness - Nation's Money Frittered Away to Finance Hare-Brained and III Advised Projects.

William R. Willcox, Chairman of the Republican National Committee, has received from Senator Penrose a brief but positive summing up of the extravagances of the Wilson Administration during the session of Congress just about to close. The Senator says:

"When the country realizes what this Congress has done in the way of appropriations it will be dumfounded. Already, it has been shown that over a billion, seven or eight hundred million dollars have been appropriatedmore money than was ever appropriated in any one year in the history tal will reach nearly two billion dollars before the end of this carnival of debauchery in public expenditures is reached, because no account has been taken of the twenty-five millions for the Danish islands, the thirty millions which the government will probably have to refund as a result of the five per cent rebate allowed on importations brought across the seas in American bottoms, and other matters which are likely to come up.

"It is only too evident that this bill which is expected to bring in some two hundred million dollars will absolutely fail to meet even the requirements for the ill-advised and certainly not urgent projects authorized by the present Congress.

"It is now claimed that these profects are to be financed by the issuance of Panama Canal bonds. The American people will regard such a proceeding as a very queer one because the issuing of bonds by the Cleveland Administration largely helped to bring about the downfall of the Democratic party in 1896. A bond we find the party leaders compelled, by reason of their extravagance and inefficiency, to resort to it.

"To defray the expenses of a nitrate plant and of a shipping board and many other needless projects by the issuing of Panama bonds will be in the last analysis equivalent to paying for them by bond issues. These bonds are lying in the treasury unissued as the result of the thrift and economy and wise administration of the Republican party.

"Only about \$130,000,000 of bonds were put out in the construction of the Panama Canal. The balance of the cost of that stupendous undertaking was paid out of current revenues; and now, to advance the novel doctrine that these bonds which represent the thrift of preceding years shall be issued for these questionable projects is, to my mind, preposterous. In fact, it was expressly provided in the Spooner Act that Panama Canal bonds should not be issued for any other purpose than that of the construction of the Canal, and the ingenious theory that they can be issued now to repay the treasury and that then the money can be squandered by the party in power to finance doubtful projects and to make good a deficit will not alter the fact that

such a deficit exists. "No amount of reasoning on the part of the Chairman of the Committee on Finance will alter the fact that outside of preparedness there has been at least \$200,000,000 of wasteful appropriations and expenditures by the present Congress. That condition of the treasury will absolutely necessitate the withholding of contracts for battleships and delay the whole scheme of preparedness.

"The figures of the Secretary of the Treasury may be juggled as they may, but when the Secretary is up against the brute fact of not having money to pay for these projects he will then find that figures will not make a surplus in the treasury."

When a window cord breaks the dropping the Wilson party. At a later made from roots and herbs, has for have a man around the house, but this stage in the campaign I shall probably forty years been alleviating the suf- value appears more doubtful as they fering of women, making them healthy get down on hands and knees to pick When asked in what particular way and strong, and better wives and out of the parlor carpet the chips he makes sharpening lead pencils.

ry walk of life Rings out the grateful praise for Doan's Kidney Pills.

Publicly testify to quick relief and lasting results. And it's all for the benefit of fellow

sufferers. In this grand chorus of local praise Maysville is well represented.

Well-known Maysville people Tell of personal experiences. Who can ask for better proof of

merit? Mrs. Dora Mefford, Maysville, says: I had been feeling poorly for some time before I knew that my kidneys were at fault. I was nervous and dizzy and my back and head ached. I rested poorly and mornings I was all tired out. I read in a local paper how a neighbor had been cured of kidney trouble by Doan's Kidney EAST BOUND-Pills. I used them and before long, I felt stronger and better and I slept good at night."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills-the same that Mrs. Mefford had. Foster-Milburn Co., Props., Buffalo, N. Y.

A PICTURE OF HUGHES

The New York World, which once was outspoken in its admiration for Mr. Hughes, now declares that the people do not know where Hughes stands, or what he stands for. This Wilson organ had no such criticism to make when Mr. Hughes was gov- IF IT'S ROOKWOOD ernor. The World said on May 17, 1910: "He dictated no nominations, controlled no convention, trafficked in no patronage, made no bargains with officeholders. He has rewarded nobody for supporting him and punished nobody for opposing him. What influence he has wielded over public opinion has come through his appeals to the voters themselves." That is the estimate of Mr. Hughes given by the World six years ago. It is a pretty fair letter of recommendation. Could the World say as much for President Wilson? Hardly, for the president has done all of the things from which the World absolved Hughes .- Kansas City Journal.

NOTICE TO THE PUBLIC PRICE OF BREAD IS RAISED

For over a quarter of a century we have been making bread for the people at 5 cents per loaf, but because of continuedincreases in flour we are compelled to raise the price to 6 and 10 cents a loaf.

Although it is not generally known, it is a fact that we have been making bread for some time at an actual loss. and for this reason the raise has become necessary.

Should the price of flour go down so will the price of our bread.
